SHOWCASE

BEYOND® CoreWhite® TakeHome Whitening Kit

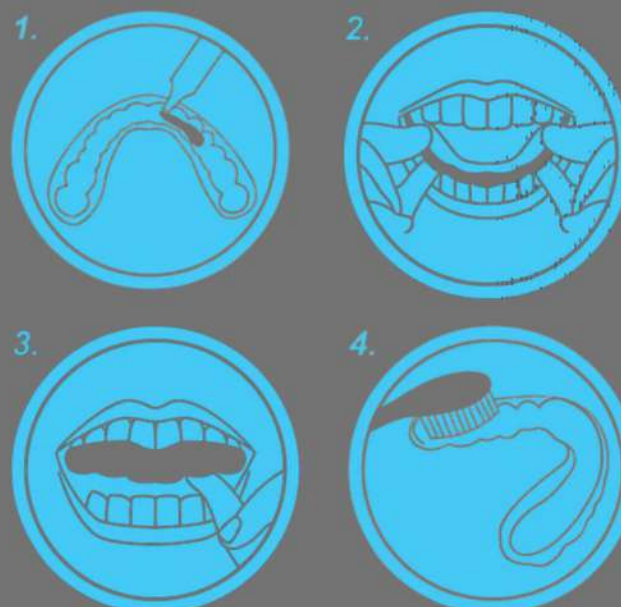

- 30 minutes a day for 14 days - no messy overnight whitening
- Visibly whiter teeth in five days
- Gentle hydrogen peroxide formula minimizes risk of sensitivity (6% H₂O₂ gel)
- Mint and Orange flavors
- CoreWhite® Refill Kits available

New and gentle 6% hydrogen peroxide (H₂O₂) formula guarantees a beautiful white smile. Offered through dental offices, the CoreWhite take-home tray teeth whitening system provides professional results from the comfort of your home for only 30 minutes a day. This kit includes material to make custom trays, and a handy carrying case with bag. A great option to have your teeth whitened in a simple, quick, and inexpensive manner.

Package Contents

- 4 syringes CoreWhite gel (2.36g /2.2 mL)

BEYOND®SOLO®

Solution Treatment Kit

- Features our popular 35% H₂O₂ W Gel 1 formula whitening gel
- Our specially formulated RS Gel contains special ingredients to reduce the risk of sensitivity
- Gel's proprietary formula improves oral health while whitening
- Produces dramatic glossy, white results
- Compact packaging, economical and practical
- Individualized packaging for single patients

OUR MOST ECONOMICAL SINGLE PATIENT WHITENING KIT

BEYOND® Solo® Solution is a single patient version of the Max5 Solution Kit. Solo® Solution consists of a single W Gel dual barrel syringe of 35% H₂O₂, which is then mixed with a RS Gel that contains known desensitizing ingredients such as potassium nitrate and restoring ingredients such as hydroxyapatite.

Package Contents

- 1 Dual-barrel syringe of Solo Solution W gel (2.6g/ 2.2mL)
- 1 Mixing tip for Solo Solution W gel syringe
- 1 Pouch of Solo Solution RS gel (11g/9.5mL)
- 1 Face protection cloth
- 1 Spatula
- 1 Brush
- 1 Vita shade guide
- 1 Instruction manual
- 1 After-treatment guide

BEYOND® MAX5® Solution Treatment Kit

- Features our original Max 35% H2O2 formula whitening gel
- Our specially formulated RS Gel contains special ingredients to reduce the risk of sensitivity
- The combination of the two gels rebuilds, strengthen, and whitens tooth enamel
- Gel's proprietary formula improves oral health while whitening
- Produces dramatic glossy, white results
- Clinically proven results

REBUILD, STRENGTHEN, AND WHITEN FORMULA

Max Solution delivers the essentials for chairside teeth bleaching of five patients. The dual barrel 35% W Gel syringe for this kit includes enough gel for three cycles. RS gel can be then applied after treatment. BEYOND® RS gel is designed to restore and desensitize the teeth after treatment, ensuring comfort and longevity of treatment results.

Package Contents

- 5 Dual-barrel syringes of Max
- 5 Solution W gel (2.6g/ 2.2mL)
- 5 Mixing tips of Max5 Solution W gel syringe
- 5 Pouches of Max5 Solution RS gel (11g/9.5mL)
- 5 Spatulas, 5 Brushes, 5 Mixing jars
- 5 Face protection cloths
- 5 Vita shade guides
- 5 After-treatment guides
- 1 Instruction manual

BEYOND® Simplex® Teeth Whitening Kit

- 37% hydrogen peroxide for maximum effectiveness
- No light required for easy use
- Dynamic mixing tip for hassle-free application
- Quick 45-minute treatment
- Smooth gel texture for precise application and easy cleanup

Your Effortless Path to a Brighter Smile

Unlock the secret to a dazzling smile with the Simplex Teeth Whitening Kit. This cutting-edge solution features a powerful 37% hydrogen peroxide formula that delivers stunning result in just 45 minutes- no light source needed! Our user Friendly Dual barrel syringe with the dynamic mixing tip, is designed for effortless application, eliminating the need for time-consuming manual mixing.

A Luxurious gel-like texture ensures precise placement and allows for effortless, complete removal.

Package Contents

- 5*Dual-barrel syringes of Beyond Simplex Whitening Gel with Mixing Tips(2.6g/2.2ml)
- 5*Solution Of Beyond BlueSeal Gingival Protection with Tips (2g/ 1.6mL)

BEYOND® Blast® Pre-Treatment Extra-Strength Whitening Paste

- 35% hydrogen peroxide manual-mix whitening paste
- Formulated to reduce the appearance of difficult and severe stain
- Effective pre-treatment whitening boost for tetracycline and fluoride stains
- for use with any BEYOND Whitening Kit or light system
- Individualized packaging for single patients
- Clinically proven results

SPECIAL DESIGNED FORMULA FOR TETRACYCLINE AND SEVERE STAINS

The BEYOND BLAST is a professional dental grade pretreatment paste designed to effectively jump-start the teeth whitening process. BEYOND BLAST's 35% hydrogen peroxide (H₂O₂) formula is especially effective as a pre-treatment for tetracycline and age-related stains. The process is simple: after patient preparation, mix and apply paste, and introduce light acceleration source.

Package Contents

- 1 Bottle of 35% H₂O₂ (2mL)
- 1 Jar of catalyst
- 1 Spatula
- 1 Application brush
- 1 Face protection cloth
- 1 Instruction manual
- 1 After-treatment guide

- Protects against the causes of hypersensitivity
- Active ingredients : Sodium Fluoride and Potassium Nitrate
- FDA registered

Advanced Formula

- Long-lasting, minty-fresh taste
- Unique pearl powder formula leaves teeth shiny and sparkling white

BEYOND® POLUS® ADVANCED ACCELERATOR ULTRA

An advanced light filtration system containing 200,000 optical fibers serves as a bridge between the two light sources, removing all harmful heat and ultraviolet (UV) light from the powerful halogen light source, before merging the light with emissions from the twelve blue LED lights at the front of the lamp head. The end results in a combination of two powerful light sources and ultrasonic technology with wavelengths that span the entire blue light whitening spectrum, providing patients with an effective and precise whitening treatment.

LightBridge™ Technology

The POLUS® Advanced Ultra Whitening Accelerator combines halogen and LED light technologies to provide users with a premium whitening experience.

- Improved motorized arm that allows for yet easier adjustment of the accelerator head for a more comfortable whitening procedure
- Radial arm with 360 range of motion
- Motorized height adjustment can be controlled from the TUI control panel and accelerator head

TOP WHITENING SYSTEM AWARD

15 Years in a Row

TUI Control Panel

- State of the art, full colored touch screen with newly added multilingual feature
- Built-in instruction mode, that allows for a customized whitening procedure based on the client's needs
- Motorized height adjustment can be controlled from the TUI control panel and accelerator head
- Dual-arch power whitening option can be set to High, Medium, or Low light output settings for a tailored treatment that best suits
- each individual patient

Different Light Output Settings

BEYOND® Power Whitening is recognized as the
Safest and Most Effective
way to whiten your teeth

BEYOND® II Ultra Whitening Accelerator

Whitening Made Simple and Delicate!

The chic and modern design of the BEYOND II Whitening Accelerator works for any dental office, spa, or salon. The BEYOND II Ultra is the latest improvement to the popular BEYOND II whitening accelerator series. Along with the convenient features of simultaneous treatment capability, intuitive touch user interface and passive air ionizer, the LED light features our patent-pending ultrasound feature to aid in brevity of treatment time and little to no sensitivity.

The ultrasound function utilizes a cavitation process that permits the whitening gel to target the enamel more comprehensively and in a shorter time frame. This means less chair time for the patient, less potential for sensitivity and the same great results you've come to expect with BEYOND.

- When used in combination with BEYOND proprietary whitening formula which contains hydrogen peroxide (H_2O_2) and silicon dioxide (SiO_2) that act as a catalyst, along with other special ingredients, the end result is not only whiter teeth but shinier teeth with reduced prep and chair time.
- The BEYOND II is both lightweight and portable for both travel and ease of use for room to room
- Whitening options can be set to Low, Medium and High light output settings for a tailored treatment that best suits each individual client
- Quick and simple client preparation and system operation with digital display control board
- Utilizing negative ions, the built-in air purifier reduces airborne pollutants that may exist within the treatment space, actively contributing to a cleaner and healthier environment
- Patented Ultrasonic Technology
- Allows for the effective treatment of two patients at the same time.

- ULTRASOUND
- SLEEK
- SIMULTANEOUS
- IONIZER
